Instance lifecycle policy for lifecycle hooks

Controls instance behavior when an instance transitions through its lifecycle states.

Termination hook abandon behavior

Terminate (default)

Lifecycle hooks (0)

Filter lifecycle hooks

Name

Lifecycle tra...

Default result

Heartbeat ti...

Notification t...

Role ARN

No lifecycle hooks are currently configured.

Lifecycle hooks help you perform custom actions on instances as they launch and before they terminate.

Create lifecycle hook

Warm pool

No warm pool currently configured.

Decrease scale-out latency by pre-initializing EC2 instances and save money by reducing the number of continuously running instances.

Create warm pool
